

INFORMATION FOR TRAVELLERS DEPARTING IN UNDER 4 WEEKS

The provision of travel vaccination is becoming increasingly complex. We can only provide an effective service with your co-operation.

Due to the complexity of travel appointments and varying courses now needed prior to travel we are unable to offer appointments if you are travelling in under 4 weeks, as most vaccines require a course which can take 4 weeks or more. Furthermore the availability of some vaccines can be erratic due to manufacturing issues.

Even though travel medicine is not part of the core GP contract we wish to provide this service for the convenience of our patients, but we do need **4 week's notice** prior to travel to give the highest standard of service.

Please find below a list of travel clinics and contact details. It is important that you organise your appointments with them as quickly as possible.

Reception will print off a list of your immunisation history to take with you.

We hope this does not cause too much inconvenience, safety is our priority.
